

SHAH FAISAL

Web Developer

About Me

My name is shah faisal. I am a frontend developer

03139406428

github0313@gmail.com

Warsak Road Peshawer, Pakistan

LANGUAGE

- English
- Urdu
- Pashto

EXPERTISE

- Create Landing Page
- Create Ecommerce Website
- Frontend Website
- UI AND UX Desingner

EXPERIENCE

HTML

- Started with the basics of HTML, understanding its structure, tags, and attributes.
- Built simple web pages incorporating headings, paragraphs, lists, and links.
- Learned about semantic HTML and its importance for accessibility and SEO.
- Experimented with HTML forms to gather user input.

Mastering CSS

- Dived into CSS styling, exploring selectors, properties, and values.
- Practiced layout techniques such as Flexbox and Grid for creating responsive designs.
- Explored CSS frameworks like Bootstrap for rapid prototyping.
- Delved into CSS animations and transitions to add interactivity to web pages.

Advanced JavaScript Concepts

- Learned about variables, data types, operators, and control structures.
- Implemented functions and learned about scope, hoisting, and closures.
- Explored DOM manipulation to dynamically update HTML and CSS based on user interactions.
